## Permission to Investigate a Cemetery

Friday, April 20, 2005

Name of the Cemetery:

Location:

To Whom It May Concern:

I represent a group of investigators, in the field of paranormal phenomena.

As part of our ongoing research, we must coordinate our efforts on locations that may yield the best results of a haunting, including cemeteries.

We seek permission for a small group of us to have afterhours access to the cemetery for one night. Our investigation would last up to 4 hours between the hours of 8pm-12am.

Our research is scientific and is performed in a serious respectful way. If by our accident a part of your property was damaged we will pay for the damages in full. Everyone in the group will also sign waivers releasing you and your organization of any liability for ourselves and our equipment. Below is a list of some of the equipment we will be using.

- -35mm Cameras
- -Digital Cameras
- -Video Cameras
- -Electro Magnetic Field Meters
- -Digital Thermometers
- -Digital Voice Recorders
- -Analog Voice Recorders
- -Flashlights

Weather conditions play a major role when performing a investigation. We will have to cancel if inclement weather occurs. If we do have to cancel we will then contact you again and inquire about setting up another date.

We appreciate your time in considering our request. If you would like to discuss any other conditions or have any questions as to our group or investigations please contact me at the information below.

Thank you,
